Version number: 2.3  
Replaces version of: 2025-07-03 (1)

Revision: 2025-07-18

**SECTION 1: Identification****1.1 Product identifier**

Trade name

**TCGS 3.5**

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

Relevant identified uses

High performance thermally conductive gel, silicone based thermal interface material

**1.3 Details of the supplier of the safety data sheet**

TCLAD  
1600 Orrin Road  
Prescott Wisconsin 54021  
United States

Telephone: 715 262 8206

**1.4 Emergency telephone number**

Emergency information service

CHEMTREC Tel: 1-800-424-9300  
This number is only available during the following  
office hours: Mon-Fri 09:00 AM - 05:00 PM

**SECTION 2: Hazard(s) identification****2.1 Classification of the substance or mixture**

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

This mixture does not meet the criteria for classification.

**2.2 Label elements**

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

- Signal word not required

- Pictograms not required

**2.3 Other hazards**

There is no additional information.

Hazards not otherwise classified

Safety data sheet available on request.

Harmful to aquatic life (GHS category 3: aquatic toxicity - acute).

Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance at a concentration of  $\geq 0.1\%$ .

Endocrine disrupting properties

Does not contain an endocrine disruptor (ED) in a concentration of  $\geq 0.1\%$ .

**SECTION 3: Composition/information on ingredients****3.1 Substances**

Not relevant (mixture)

**3.2 Mixtures**

## TCGS 3.5

Version number: 2.3  
Replaces version of: 2025-07-03 (1)

Revision: 2025-07-18

### Description of the mixture

| Name of substance | Identifier          | Wt%       | Classification acc. to GHS          | Pictograms                                                                          |
|-------------------|---------------------|-----------|-------------------------------------|-------------------------------------------------------------------------------------|
| Aluminum oxide    | CAS No<br>1344-28-1 | 50 – < 75 | Acute Tox. 4 / H332<br>cD / OSHA003 |  |

### Remarks

For full text of abbreviations: see SECTION 16

## SECTION 4: First-aid measures

### 4.1 Description of first-aid measures

#### General notes

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

#### Following inhalation

If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. Provide fresh air.

#### Following skin contact

Wash with plenty of soap and water.

#### Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart.

#### Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

### 4.2 Most important symptoms and effects, both acute and delayed

Symptoms and effects are not known to date.

### 4.3 Indication of any immediate medical attention and special treatment needed

none

## SECTION 5: Fire-fighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing media

Water spray, BC-powder, Carbon dioxide (CO<sub>2</sub>)

#### Unsuitable extinguishing media

Water jet

### 5.2 Special hazards arising from the substance or mixture

#### Hazardous combustion products

Carbon monoxide (CO), Carbon dioxide (CO<sub>2</sub>)

### 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

**TCGS 3.5**

Version number: 2.3  
Replaces version of: 2025-07-03 (1)

Revision: 2025-07-18

**SECTION 6: Accidental release measures****6.1 Personal precautions, protective equipment and emergency procedures**

For non-emergency personnel

Remove persons to safety.

For emergency responders

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

**6.2 Environmental precautions**

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it. If substance has entered a water course or sewer, inform the responsible authority.

**6.3 Methods and material for containment and cleaning up**

Advice on how to contain a spill

Covering of drains

Advice on how to clean up a spill

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage: sawdust, kieselgur (diatomite), sand, universal binder

Appropriate containment techniques

Use of adsorbent materials.

Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

**6.4 Reference to other sections**

Hazardous combustion products: see section 5. Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

**SECTION 7: Handling and storage****7.1 Precautions for safe handling**

Recommendations

- Measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Use only in well-ventilated areas.

Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

**7.2 Conditions for safe storage, including any incompatibilities**

There is no additional information.

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials" (Section 10).

**7.3 Specific end use(s)**

See section 16 for a general overview.

**SECTION 8: Exposure controls/personal protection****8.1 Control parameters**

### 8.2 Exposure controls

Appropriate engineering controls

General ventilation.

Individual protection measures (personal protective equipment)

Eye/face protection

Wear eye/face protection.

Skin protection

- Hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

- Other protection measures

Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

Respiratory protection

In case of inadequate ventilation wear respiratory protection.

Environmental exposure controls

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

|                |                       |
|----------------|-----------------------|
| Physical state | liquid                |
| Color          | grey                  |
| Particle       | not relevant (liquid) |
| Odor           | odorless              |

#### Other safety parameters

|                                         |                |
|-----------------------------------------|----------------|
| pH (value)                              | not determined |
| Melting point/freezing point            | not determined |
| Initial boiling point and boiling range | 2,980 °C       |

| <b>9.2 Other information</b> | there is no additional information |

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials".

### 10.2 Chemical stability

The material is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

### 10.3 Possibility of hazardous reactions

No known hazardous reactions.

### 10.4 Conditions to avoid

There are no specific conditions known which have to be avoided.

### 10.5 Incompatible materials

Oxidizers

### 10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

Test data are not available for the complete mixture.

**TCGS 3.5**

Version number: 2.3  
Replaces version of: 2025-07-03 (1)

Revision: 2025-07-18

**Classification procedure**

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

**Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)**

This mixture does not meet the criteria for classification.

**Acute toxicity**

Shall not be classified as acutely toxic.

**Acute toxicity estimate (ATE) of components**

| Name of substance | CAS No    | Exposure route        | ATE          |
|-------------------|-----------|-----------------------|--------------|
| Aluminum oxide    | 1344-28-1 | inhalation: dust/mist | >2.3 mg/l/4h |

**Skin corrosion/irritation**

Shall not be classified as corrosive/irritant to skin.

**Serious eye damage/eye irritation**

Shall not be classified as seriously damaging to the eye or eye irritant.

**Respiratory or skin sensitization**

Shall not be classified as a respiratory or skin sensitizer.

**Germ cell mutagenicity**

Shall not be classified as germ cell mutagenic.

**Carcinogenicity**

Shall not be classified as carcinogenic.

**Reproductive toxicity**

Shall not be classified as a reproductive toxicant.

**Specific target organ toxicity - single exposure**

Shall not be classified as a specific target organ toxicant (single exposure).

**Specific target organ toxicity - repeated exposure**

Shall not be classified as a specific target organ toxicant (repeated exposure).

**Aspiration hazard**

Shall not be classified as presenting an aspiration hazard.

**SECTION 12: Ecological information****12.1 Toxicity**

Harmful to aquatic life.

**Aquatic toxicity (acute) of components**

| Name of substance | CAS No    | Endpoint | Value     | Species                             | Exposure time |
|-------------------|-----------|----------|-----------|-------------------------------------|---------------|
| Aluminum oxide    | 1344-28-1 | LC50     | 11.5 mg/l | rainbow trout (Oncorhynchus mykiss) | 48 h          |
| Aluminum oxide    | 1344-28-1 | EC50     | >50 mg/l  | zebra fish (Danio rerio)            | 96 h          |

**12.2 Persistence and degradability**

Data are not available.

**12.3 Bioaccumulative potential**

**TCGS 3.5**

Version number: 2.3  
Replaces version of: 2025-07-03 (1)

Revision: 2025-07-18

Data are not available.

**12.4 Mobility in soil**

Data are not available.

**12.5 Results of PBT and vPvB assessment**

Does not contain a PBT-/vPvB-substance at a concentration of  $\geq 0.1\%$ .

**12.6 Endocrine disrupting properties**

Does not contain an endocrine disruptor (ED) in a concentration of  $\geq 0.1\%$ .

**12.7 Other adverse effects**

Data are not available.

**SECTION 13: Disposal considerations****13.1 Waste treatment methods**

Sewage disposal-relevant information

Do not empty into drains. Avoid release to the environment. Refer to special instructions/safety data sheets.

Waste treatment of containers/packages

Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself.

**Remarks**

Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

**SECTION 14: Transport information**

### SECTION 15: Regulatory information

#### 15.1 Safety, health and environmental regulations specific for the product in question

##### National regulations (United States)

##### Toxic Substance Control Act (TSCA)

all ingredients are listed (ACTIVE) or exempt from listing

##### Superfund Amendment and Reauthorization Act (SARA TITLE III )

- The List of Extremely Hazardous Substances and Their Threshold Planning Quantities (EPCRA Section 302, 304)

none of the ingredients are listed

- Specific Toxic Chemical Listings (EPCRA Section 313)

##### Toxics Release Inventory: Specific Toxic Chemical Listings

| Name of substance | CAS No    | Remarks       | Effective date |
|-------------------|-----------|---------------|----------------|
| Aluminum oxide    | 1344-28-1 | fibrous forms | 1987-01-01     |

##### Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)

- List of Hazardous Substances and Reportable Quantities (CERCLA section 102a) (40 CFR 302.4)

none of the ingredients are listed

##### Clean Air Act

none of the ingredients are listed

##### Right to Know Hazardous Substance List

- Cleaning Product Right to Know Act Substance List (CA-RTK)

none of the ingredients are listed

- Toxic or Hazardous Substance List (MA-TURA)

| Name of substance | CAS No    | DEP CODE | PBT / HHS / LHS | PBT / HHS Threshold | De Minimis Concentration Threshold |
|-------------------|-----------|----------|-----------------|---------------------|------------------------------------|
| Aluminum oxide    | 1344-28-1 |          |                 |                     | 1.0 %                              |

- Hazardous Substances List (MN-ERTK)

| Name of substance | CAS No    | References | Remarks |
|-------------------|-----------|------------|---------|
| Aluminum oxide    | 1344-28-1 | A          |         |

| 8.2     | Hand protection:<br>Wear protective gloves.                                                                                    | Hand protection:<br>Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. | yes             |

| DGR              | Dangerous Goods Regulations (see IATA/DGR)                                                                                                                                                                                                                                                                                                                       |
| DNEL             | Derived No-Effect Level                                                                                                                                                                                                                                                                                                                                          |
| EC50             | Effective Concentration 50 %. The EC50 corresponds to the concentration of a tested substance causing 50 % changes in response (e.g. on growth) during a specified time interval                                                                                                                                                                                 |
| ED               | Endocrine disruptor                                                                                                                                                                                                                                                                                                                                              |
| GHS              | "Globally Harmonized System of Classification and Labelling of Chemicals" developed by the United Nations                                                                                                                                                                                                                                                        |
| HHS              | Higher hazard substance                                                                                                                                                                                                                                                                                                                                          |
| IATA             | International Air Transport Association                                                                                                                                                                                                                                                                                                                          |

## TCGS 3.5

Version number: 2.3  
Replaces version of: 2025-07-03 (1)

Revision: 2025-07-18

| Abbr.          | Descriptions of used abbreviations                                                                                                                |
|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| IATA/DGR       | Dangerous Goods Regulations (DGR) for the air transport (IATA)                                                                                    |
| ICAO           | International Civil Aviation Organization                                                                                                         |
| IMDG           | International Maritime Dangerous Goods Code                                                                                                       |
| LC50           | Lethal Concentration 50%: the LC50 corresponds to the concentration of a tested substance causing 50 % lethality during a specified time interval |
| LHS            | Lower hazard substance                                                                                                                            |
| NIOSH REL      | National Institute for Occupational Safety and Health (NIOSH): Recommended Exposure Limits (RELs)                                                 |
| NPCA-HMIS® III | National Paint and Coatings Association: Hazardous Materials Identification System - HMIS® III, Third Edition                                     |
| OSHA           | Occupational Safety and Health Administration (United States)                                                                                     |
| PBT            | Persistent, Bioaccumulative and Toxic                                                                                                             |
| PEL            | Permissible exposure limit                                                                                                                        |
| ppm            | Parts per million                                                                                                                                 |
| RTECS          | Registry of Toxic Effects of Chemical Substances (database of NIOSH with toxicological information)                                               |
| STEL           | Short-term exposure limit                                                                                                                         |
| TLV®           | Threshold Limit Values                                                                                                                            |
| TWA            | Time-weighted average                                                                                                                             |
| vPvB           | Very Persistent and very Bioaccumulative                                                                                                          |

### Key literature references and sources for data

OSHA Hazard Communication Standard (HCS), 29 CFR 1910.1200.

Transport of dangerous goods by road or rail (49 CFR US DOT). International Maritime Dangerous Goods Code (IMDG).

Dangerous Goods Regulations (DGR) for the air transport (IATA).

### Classification procedure

Physical and chemical properties: The classification is based on tested mixture.

Health hazards, Environmental hazards: The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

### List of relevant phrases (code and full text as stated in section 2 and 3)

| Code    | Text                                             |
|---------|--------------------------------------------------|
| H332    | Harmful if inhaled.                              |
| OSHA003 | May form combustible dust concentrations in air. |
